

## Review contents

### 1. Introduction (Pg.5)

### 2. Nanotech in 2017 (Pg. 6)

### 3. Nanotech in Smart Textiles and Wearable Technology (Pg. 10)

- Wearable sensors
- Flexible & wearable electronics
- Wearable energy harvesting
- Companies

### 4. Graphene Quantum Dots (Pg. 16)

- Properties
- Synthesis
- Applications
- Producers

### 5. Carbon onions (Pg. 19)

- Properties
- Synthesis
- Applications
- Producers

### 6. Commercializing nanocellulose (Pg. 21)

- Types of nanocellulose produced
- Global production
- Products on the market

### 7. Graphene in flexible and wearable electronic devices (Pg. 24)

- Transparent conductive films
- Market size
- ITO replacement
- Challenges
- Products
- Companies

### 8. Nanodiamonds (Pg. 28)

- Properties
- Synthesis
- Applications
- Producers

### 9. Nanotechnology in automotive displays (Pg. 33)

- Drivers and trends
- Technologies
- Commercial activities
- Anti-fingerprint nanocoatings

### 10. Nanotech flexible, wearable "Eskin" sensor devices for in vitro diagnostics and

### therapeutics (Pg. 36)

- Wearable health monitoring
- Nanotechnology solutions
- Commercial activities

### 11. Carbon nanomaterials in semiconductors packaging (Pg. 39)

- Properties
- Synthesis
- Applications
- Producers insight

### 12. Graphene conductive inks (Pg. 47)

- Market size
- Companies

### 13. Graphene in Asia (Pg. 50)

- Japan
- South Korea
- Taiwan
- Malaysia

### 14. Graphene in China (Pg. 54)

- Government funding
- Graphene production
- Graphene Powder producers
- Graphene Film Manufacturers

### 15. Nanotechnology in China (Pg. 57)

- Funding and development
- Future Strategy
- 13th Five-Year Plan

### 16. Nanotechnology in Japan (Pg. 60)

- Science and Technology Basic Plans
- Government Bodies
- Research Centres and Platforms
- Nanotech Companies
- Nanomaterials Producers
- Application and product developers

### 17. Carbon nanomaterials in Asia (Pg. 70)

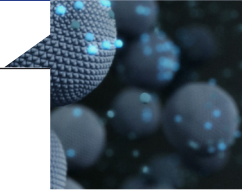

### 18. Graphene in South Korea (Pg. 73)

- Nanotechnology funding in South Korea
- Graphene funding
- Government research centre activities in graphene

### 19. Nanotech in Smart Clothing (Pg. 75)

- Nanofibers
- Silver nanowires
- Carbon nanotubes
- Graphene

### 20. Smart windows (Pg. 80)

- The smart windows market
- Thermo-chromic windows
- Electrochromic windows

#### **21. Graphene in the Lithium-Ion Batteries Market (Pg. 83)**

- Target markets
- Product developers

#### **22. Graphene in 3D printing(Pg. 86)**

- Market size
- Companies and products

#### **23. Other 2D materials (Pg. 89)**

- Phosphorene
- Silicene
- Molybdenum Disulfide
- Hexagonal Boron Nitride
- Germanene
- Graphdiyne
- Graphane
- Stanene/Tinene
- Tungsten Diselenide
- Rhenium Disulfide

#### **24. C2N holey 2D materials (Pg. 100)**

- Nitrogenated holey two-dimensional structures
- Applications

#### **25. Graphene in biomedicine (Pg. 102)**

- Cancer therapy
- Medical implants
- Wound dressings
- Biosensors
- Challenges
- Product developers

#### **26. Graphene in coatings (Pg. 105)**

- Graphene in anti-corrosion coatings
- Graphene in marine coatings
- Graphene in anti-microbial coatings
- Graphene in wear and abrasion resistance coatings
- Product developers

#### **27. Protective nanocoatings (Pg. 108)**

- Corrosion resistant nanocoatings
- Wear resistant nanocoatings
- Thermal barrier nanocoatings

#### **28. Nanomaterials in the Wound Management Market (Pg. 113)**

- Wound management market opportunity
- Nanosilver

- Zinc oxide nanoparticles
- Nanocellulose
- Chitosan
- Commercial activities

#### **29. Graphene in oil & gas (Pg. 116)**

- Sensing and reservoir management
- Coatings
- Drilling fluids
- Sorbent materials
- Catalysts
- Separation

#### **30. Nanotech in Food Packaging (Pg. 121)**

- Food Packaging
- Nanoclays
- Nanosilver
- Nanocellulose
- Commercial activities

#### **31. Nanotech in Anti-counterfeit Applications (Pg. 126)**

- Market drivers
- Nanomaterials
- Product developers

#### **32. Anti-reflective nanocoatings (Pg. 129)**

- Market drivers and trends in Anti-Reflective (AR) Nanocoatings
- Benefits of using Anti-Reflective (AR) Nanocoatings
- Markets and Applications of Anti-Reflective (AR) Nanocoatings
- Commercial activities in Anti-Reflective (AR) Nanocoatings

#### **33. Anti-icing nanocoatings (Pg. 134)**

- Market drivers for anti-icing nanocoatings
- Benefits of using anti-icing nanocoatings
- Superhydrophobic surfaces
- Commercial activities in anti-icing nanocoatings

#### **34. Carbon nanotubes memory market (Pg. 135)**

- NRAM Overview
- How NRAM Works
- Target Markets
- The Carbon Nanotube Future

#### **35. The market for metamaterials (Pg. 142)**

- What is a Metamaterial?
- History of metamaterial science
- The Market Opportunity to Master Light

#### **36. Nanolubricants (Pg. 145)**

- Market drivers
- Lubricant additives
- Nano additives
- Products
- Carbon nanomaterials

### **37. Quantum Dot TVs (Pg. 147)**

- Market drivers for quantum dot TVs
- LCDs vs. OLEDs vs. QD-LCDs
- QD-LCD TVs
- Integration into LCDs
- On-edge (Edge optic)
- On-surface (film)
- On-chip
- QLED-TEVS
- Quantum rods
- QD-LCD Products
- Recent developments
- Market size for QD-TEVS

### **38. Dendrimers market (Pg. 155)**

- What are dendrimers?
- Types of dendrimers
- Quality of products

### **39. Nanotech industry news 2016 (Pg. 157)**

### **40. Nanotech government policy and regulation news 2016 (Pg. 226)**

### **41. Companies to watch in 2017 (Pg. 234-Profiles of 50 of the leading nanotech start-ups including products and stage of commercialization)**
