The Global Market for Nanomaterials

Table of contents

1 RESEARCH METHODOLOGY ................................................................. 30
  1.1 NANOMATERIALS MARKET RATING SYSTEM......................................................... 30
    1.1.1 Addressable market size ......................................................................................... 30
    1.1.2 Competitive landscape ............................................................................................ 31
    1.1.3 IP landscape ............................................................................................................. 31
    1.1.4 Commercial prospects ............................................................................................... 31

2 INTRODUCTION .................................................................................. 32
  2.1 Aims and objectives of the study ................................................................................... 32
  2.2 Market definition ............................................................................................................ 32
    2.2.1 Properties of nanomaterials ......................................................................................... 32
  2.3 Categorization .................................................................................................................. 33

3 EXECUTIVE SUMMARY .................................................................... 34

4 NANOMATERIALS REGULATIONS ....................................................... 37
  4.1 Europe ............................................................................................................................... 38
    4.1.1 REACH ..................................................................................................................... 38
    4.1.2 Biocidal Products Regulation ..................................................................................... 38
    4.1.3 National nanomaterials registers ............................................................................... 38
    4.1.4 Cosmetics regulation .................................................................................................. 39
    4.1.5 Food safety .................................................................................................................. 40
    4.1.6 Nanomaterials regulations and rulings 2017-2018 ................................................... 40
  4.2 United States ................................................................................................................. 41
    4.2.1 Toxic Substances Control Act (TSCA) .................................................................... 41
    4.2.2 Nanomaterials regulations and rulings 2017-2018 ................................................... 42
  4.3 Asia .................................................................................................................................... 43
4.3.1 Japan ..................................................................................................................................................... 43
4.3.2 South Korea ........................................................................................................................................... 43
4.3.3 Taiwan ................................................................................................................................................... 43
4.3.4 Australia ................................................................................................................................................. 43
4.3.5 Nanomaterials regulations and rulings 2017-2018................................................................................ 44

5  PATENTING ................................................................................................................................................. 45

6  ALUMINIUM OXIDE NANOPARTICLES ................................................................................................... 47

6.1 Market prospects ............................................................................................................................................. 48
6.2 Market summary and nanomaterials analysis ................................................................................................. 48
6.3 Properties ......................................................................................................................................................... 49
6.4 Applications ...................................................................................................................................................... 49
6.5 Demand by market ........................................................................................................................................... 50
6.6 Technology readiness level (TRL) ................................................................................................................... 52
6.7 Demand in tons, 2010-2030 ............................................................................................................................. 53
6.8 Demand by region ............................................................................................................................................ 54
6.9 Prices ............................................................................................................................................................... 55
6.10 Producers (32 company profiles) ................................................................................................................ 56

7  ANTIMONY TIN OXIDE NANOPARTICLES ............................................................................................... 66

7.1 Market prospects ............................................................................................................................................. 66
7.2 Market summary and nanomaterials analysis ................................................................................................. 67
7.3 Properties ......................................................................................................................................................... 67
7.4 Applications ...................................................................................................................................................... 68
7.5 Demand by market ........................................................................................................................................... 68
7.6 Technology readiness level (TRL) ................................................................................................................... 69
7.7 Demand in tons, 2010-2030 ............................................................................................................................. 70
7.8 Demand by region ............................................................................................................................................ 72
7.9 Prices ............................................................................................................................................................... 73
7.10 Producers (20 company profiles) ................................................................................................................ 73

8  BISMUTH OXIDE NANOPARTICLES ................................................................................................... 79
8.1 Market prospects ................................................................. 79
8.2 Market summary and nanomaterials analysis ................................. 79
8.3 Properties ............................................................................. 80
8.4 Applications .......................................................................... 80
8.5 Demand by market ............................................................... 81
8.6 Technology readiness level (TRL) ........................................... 82
8.7 Demand in tons, 2010-2030 .................................................. 83
8.8 Demand by region ............................................................... 85
8.9 Prices .................................................................................. 86
8.10 Producers (13 company profiles) ............................................ 86

9 MULTI-WALLED CARBON NANOTUBES (MWNT) ....................... 90
9.1 Market prospects ................................................................. 91
9.2 Market summary and nanomaterials analysis ................................. 91
9.3 Properties ............................................................................. 92
9.3.1 Double-walled carbon nanotubes (DWNT) .......................................... 93
9.4 Applications .......................................................................... 93
9.5 Technology readiness level (TRL) ........................................... 95
9.6 Demand by market ............................................................... 96
9.7 Demand in tons, 2010-2030 .................................................. 98
9.8 Demand by region ............................................................... 99
9.9 Prices .................................................................................. 101
9.10 Producers (57 company profiles) ............................................ 101

10 CERIUM OXIDE NANOPARTICLES ........................................ 115
10.1 Market prospects ................................................................. 115
10.2 Market summary and nanomaterials analysis ................................. 116
10.2.1 Properties ........................................................................ 116
10.2.2 Applications ..................................................................... 117
10.2.3 Technology readiness level (TRL) ........................................ 117
10.2.4 Demand by market ........................................................... 119
13.3 Properties .................................................................................................................................................. 147
  13.3.1.1 Types ......................................................................................................................................... 148
13.4 Applications........................................................................................................................................... 149
13.5 Technology readiness level (TRL) .......................................................................................................... 150
13.6 Demand by market................................................................................................................................ 151
13.7 Demand in tons, 2010-2030 ..................................................................................................................... 152
13.8 Demand by region ................................................................................................................................... 154
13.9 Prices ........................................................................................................................................................ 155
13.10 Producers (12 company profiles)........................................................................................................... 156
14 FULLERENES ............................................................................................................................................. 158
  14.1 Market prospects ................................................................................................................................... 159
  14.2 Market summary and nanomaterials analysis ......................................................................................... 159
  14.3 Properties ................................................................................................................................................ 160
  14.4 Applications........................................................................................................................................... 160
  14.5 Technology readiness level (TRL) .......................................................................................................... 161
  14.6 Demand by market................................................................................................................................ 162
  14.7 Demand in tons, 2010-2030 ..................................................................................................................... 163
  14.8 Demand by region ................................................................................................................................... 164
  14.9 Prices ........................................................................................................................................................ 166
  14.10 Producers (27 company profiles)........................................................................................................... 166
15 GOLD NANOPARTICLES ............................................................................................................................ 170
  15.1 Market prospects ................................................................................................................................... 170
  15.2 Market summary and nanomaterials analysis ......................................................................................... 171
  15.3 Properties................................................................................................................................................ 172
  15.4 Applications........................................................................................................................................... 172
  15.5 Technology readiness level (TRL) .......................................................................................................... 173
  15.6 Demand by market................................................................................................................................ 174
  15.7 Demand in tons, 2010-2030 ..................................................................................................................... 175
  15.8 Demand by region................................................................................................................................... 177
15.9 Prices .......................................................................................................................................................... 178
15.10 Producers (30 company profiles) .............................................................................................................. 179

16 GRAPHENE .................................................................................................................................................. 181
16.1 Market prospects ...................................................................................................................................... 181
16.2 Market summary and nanomaterials analysis .......................................................................................... 182
16.3 Properties .................................................................................................................................................. 183
16.4 Applications ............................................................................................................................................... 184
16.5 Technology readiness level (TRL) ............................................................................................................ 188
16.6 Demand by market .................................................................................................................................... 189
16.7 Demand in tons, 2010-2030 ..................................................................................................................... 191
16.7.1 Graphene oxide ................................................................................................................................... 192
16.7.2 Graphene nanoplatelets ...................................................................................................................... 194
16.7.3 CVD graphene film ............................................................................................................................... 196
16.7.4 Planned graphene capacities 2018 onwards ....................................................................................... 197
16.8 Demand by region ..................................................................................................................................... 198
16.9 Prices ........................................................................................................................................................ 199
16.10 Producers (150 company profiles) .............................................................................................................. 200

17 IRON OXIDE NANOPARTICLES .............................................................................................................. 223
17.1 Market prospects ...................................................................................................................................... 223
17.2 Market summary and nanomaterials analysis .......................................................................................... 223
17.3 Properties .................................................................................................................................................. 224
17.4 Applications ............................................................................................................................................... 224
17.5 Technology readiness level (TRL) ............................................................................................................ 225
17.6 Demand by market .................................................................................................................................... 226
17.7 Demand in tons, 2010-2030 ..................................................................................................................... 228
17.8 Demand by region ..................................................................................................................................... 229
17.9 Prices ........................................................................................................................................................ 230
17.10 Producers (34 company profiles) .............................................................................................................. 231

18 MAGNESIUM OXIDE NANOPARTICLES .............................................................................................. 235
18.1 Market prospects ...................................................................................................................................... 235
18.2 Market summary and nanomaterials analysis .......................................................................................... 236
18.3 Properties .................................................................................................................................................. 236
18.4 Applications ............................................................................................................................................... 236
18.5 Technology readiness level (TRL) ............................................................................................................ 237
18.6 Demand by market.................................................................................................................................... 238
18.7 Demand in tons, 2010-2030 ..................................................................................................................... 239
18.8 Demand by region ..................................................................................................................................... 240
18.9 Prices ........................................................................................................................................................ 241
18.10 Producers (20 company profiles) .............................................................................................................. 242

19 MANGANESE OXIDE NANOPARTICLES ................................................. 247
19.1 Market prospects ...................................................................................................................................... 247
19.2 Market summary and nanomaterials analysis .......................................................................................... 247
19.3 Properties .................................................................................................................................................. 248
19.4 Applications ............................................................................................................................................... 248
19.5 Technology readiness level (TRL) ............................................................................................................ 249
19.6 Demand by market.................................................................................................................................... 249
19.7 Demand in tons, 2010-2030 ..................................................................................................................... 250
19.8 Demand by region ..................................................................................................................................... 252
19.9 Prices ........................................................................................................................................................ 253
19.10 Producers (6 company profiles) ................................................................................................................ 253

20 NANOCHELULOSE ........................................................................ 256
20.1 Market prospects ...................................................................................................................................... 256
20.2 Market summary and nanomaterials analysis .......................................................................................... 256
20.3 Properties .................................................................................................................................................. 258
20.4 Applications ............................................................................................................................................... 260
20.5 Technology readiness level (TRL) ............................................................................................................ 263
20.6 Demand by market.................................................................................................................................... 264
20.7 Demand in tons, 2010-2030 ..................................................................................................................... 265
23.1 Market prospects ...................................................................................................................................... 323
23.2 Market summary and nanomaterials analysis .......................................................................................... 324
23.3 Properties .................................................................................................................................................. 324
23.4 Applications ............................................................................................................................................... 324
23.5 Technology readiness level (TRL) ............................................................................................................ 325
23.6 Demand by market .................................................................................................................................... 326
23.7 Demand in tons, 2010-2030 ..................................................................................................................... 327
23.8 Demand by region ..................................................................................................................................... 329
23.9 Producers (55 company profiles) .............................................................................................................. 331

24 NANOSILVER .............................................................................................................................................. 341
24.1 Market prospects ...................................................................................................................................... 341
24.2 Market summary and nanomaterials analysis .......................................................................................... 341
24.3 Properties .................................................................................................................................................. 343
24.4 Applications ............................................................................................................................................... 344
24.5 Demand by market .................................................................................................................................... 346
24.6 Technology readiness level (TRL) ............................................................................................................ 348
24.7 Demand in tons, 2010-2030 ..................................................................................................................... 349
24.8 Demand, by region .................................................................................................................................... 351
24.9 Prices ........................................................................................................................................................ 352
24.10 Producers (29 company profiles) .............................................................................................................. 353

25 NANOWIRES ............................................................................................................................................... 359
25.1 Market prospects ...................................................................................................................................... 359
25.2 Market summary and nanomaterials analysis .......................................................................................... 360
25.3 Properties .................................................................................................................................................. 360
25.4 Applications ............................................................................................................................................... 361
25.5 Technology readiness level (TRL) ............................................................................................................ 362
25.6 Demand by market .................................................................................................................................... 363
25.7 Demand, by region .................................................................................................................................... 364
25.8 Prices ........................................................................................................................................................ 365
26 NICKEL NANOPARTICLES .......................................................... 372
26.1 Market prospects .................................................................................................................. 372
26.2 Market summary and nanomaterials analysis ...................................................................... 373
26.3 Properties .......................................................................................................................... 374
26.4 Applications .......................................................................................................................... 375
26.5 Demand by market .............................................................................................................. 376
26.6 Technology readiness level (TRL) ......................................................................................... 378
26.7 Demand in tons, 2010-2030 .............................................................................................. 379
26.8 Demand, by region .............................................................................................................. 380
26.9 Prices .................................................................................................................................... 381
26.10 Producers (11 company profiles) ......................................................................................... 382

27 QUANTUM DOTS ............................................................................. 385
27.1 Market prospects .................................................................................................................. 385
27.2 Properties .......................................................................................................................... 385
  27.2.1 Cadmium Selenide, Cadmium Sulfide and other materials .............................................. 387
  27.2.2 Cadmium free quantum dots .......................................................................................... 387
27.3 Applications .......................................................................................................................... 388
27.4 Technology readiness level (TRL) ......................................................................................... 392
27.5 Demand by market .............................................................................................................. 393
27.6 Demand, 2010-2030 .......................................................................................................... 395
27.7 Demand by region .............................................................................................................. 397
27.8 Prices .................................................................................................................................... 398
27.9 Producers (35 company profiles) ......................................................................................... 399

28 SILICON OXIDE NANOPARTICLES .......................................... 411
28.1 Market prospects .................................................................................................................. 411
28.2 Market summary and nanomaterials analysis .................................................................... 411
28.3 Properties .......................................................................................................................... 412
28.4 Applications .......................................................................................................................... 413
